CONSTRUCTION

THE SCHOOL DISTRICT OF PALM BEACH COUNTY

Palm Beach Gardens Elementary School

Palm Beach Gardens, Florida

This project consisted of the replacement of the existing Pre K-5 facility with a 121,000 GSF facility to accommodate 970 student stations.

The Palm Beach Gardens Elementary Replacement project entails the demolition of the existing facility, which is mostly comprised of buildings originally designed in 1952. This replacement project will provide 2 pre-kindergarten classrooms, 8 kindergarten classrooms, 14 primary classrooms (2 of which are ESE primary classrooms) and 12 intermediate classrooms. Supplemental classroom spaces such as Skills Labs and Resource Rooms shall also be provided. Facility support spaces, including administration, media center, cafeteria, teacher planning areas and physical education areas, are also part of the program.

The replacement facility was constructed on the current site.

PROJECT SIZE:

121,000 SF
